Programming Fundamentals using Python

Infosys Springboard

PROJECTS

AI-Powered Mock Interview Platform (Best Department Project 2025, IT AJCE) 06/2024 - 05/2025

- Developed an AI-driven interview preparation tool integrating SER and FER.
- Used OpenAI Whisper Large V3 and EmotiEffLib to analyze real-time emotional cues from user speech and facial expressions.
- Designed an NLP-based resume parser to extract candidate details and match them with job requirements.
- Implemented AI-generated interview questions using the Gemini model, based on resume, job role, and HR criteria and built a personalized feedback system that rates candidate performance on clarity, emotion, and relevance.

PrintConnect, Mini Project

02/2024 - 04/2024

- Created a web app using React, Tailwind CSS, SQLite3, Python, Flask, and Express that streamlines the process of automating Print Jobs at multiple print locations/branches.
- Implemented at a local print shop in Kanjirappally Town, Kottayam, Kerala at their two locations.

SKILLS

- ADB/AOSP in Android Development, Figma, Great Documentation Skills, Microsoft Office Suite, Proficiency in English Language, Touch Typing Proficiency
- **Frameworks:** Android SDK, Bootstrap, Docker, Express.js, Firebase, Flutter, Git, Linux, MongoDB, MySQL, MySQL MongoDB Firebase, Postman, React, Tailwind CSS
